

FUNCTION

1122

Touch The Limit™

From car to shirt!
We've made history
with the first use
of 100% Woven
Carbon Fiber and
integrated function
in a shirt for drivers!

The story...

The background of the image is a stack of five fabric samples, each with a distinct color and a fine, woven texture. The colors, from top to bottom, are orange, blue, green, red, and purple. The fabrics are slightly offset from each other, creating a sense of depth and layering. The lighting is even, highlighting the texture of the materials.

*Once upon a time there surfaced
a lightweight performance
garment fabric...*

SO WE BOUGHT IT

*Then we rode down real woven
industrial carbon fiber and...
REPURPOSED IT*

*Because a shirt specifically for drivers
did not exist...*

WE DESIGNED IT

*As shirts with a driver-centric function
remained ignored...*
WE ENGINEERED IT

*There existed no shirts fitted and
tested for driver comfort...*

SO WE DROVE IT

...aND DROVE IT

...aND DROVE IT!

YOUR TURN...

Your Shirt's Production Image

Driven by Passion | Built for Function

THOSE WHO DRIVE
Touch the Limit®

Congratulations on owning the first shirt to incorporate 100% real woven carbon fiber. The first shirt to integrate driver utility. The first exclusive and one of a kind wearable work of art, science, and engineering! Every Function 1122® woven carbon fiber “Diffuser” shirt is hand engineered, and is therefore subtly unique. Your particular shirt, like a vehicle, has an identification number or Apparel Registry Number (ARN). The number is registered with our product protection & recovery service center to validate its authenticity and aid in its recovery if it is lost or stolen.

As part of our anti-fraud, counterfeit, and theft recovery service your ARN also allows pre-ordering before new collections are publicly released. If your Function 1122® apparel or accessory item is ever lost or stolen we will provide the following **free** of charge:

- **Notification** - if we locate your item(s) on popular bidding/sales sites
- **ARN** – Apparel Registration Number is matched to your apparel’s pictures to help with identification & recovery if lost or stolen.
